**invites you to the research workshop**

# **Molecular and Cellular Therapies for Usher Syndrome, Stargardt Disease and Age-Related Macular Degeneration**

**December 4 - 6, 2022**

**Venue:**

**Conference Centre  
Chateau Liblice, Czech Republic**

**pigmod**

Dear Partners.

The Pigmod Centre of the Institute of Animal Physiology and Genetics CAS focuses on basic and applied research in the field of serious, as yet untreatable human diseases. Currently, the centre is working on several projects aimed at developing gene and cell therapy for serious eye diseases, such as Usher syndrome, age-related macular degeneration (AMD) and Stargardt disease.

Already last year, we organized an international workshop for successful solution of scientific problems in these areas. We have therefore decided to organize a similar meeting this year, which will be called "Molecular and Cellular Therapies for Usher Syndrome, Stargardt Disease and Age-Related Macular Degeneration." The expert workshop will take place from 4 to 6 December 2022 in the conference centre of the Academy of Sciences of the Czech Republic at the Chateau Liblice.

We would welcome your participation in this important scientific meeting and offer you the opportunity to present your current products on this occasion. For this purpose, the Marble Hall of the Chateau will be reserved, where you will have a great opportunity to present your company. At the same time, we would like your company to support this meeting financially.

In case of your interest, please send us written order, where our institute (Institute of Animal Physiology and Genetics CAS, v. v. i., Rumburská 89, 277 21 Libečov, ID No. 679858904, Tax ID No. CZ67985904) will be the supplier and your company the customer, who orders the rental of advertising space from us.

Into the text of the order, please write e.g. "We order the rental of the exhibition area for the company presentation/provision of the exhibition stand for the presentation of our company" and the indication of the place and date of the workshop – Liblice, 4. - 6.12.2022. The price on the order must always be without VAT plus 21% VAT. Based on the order thus delivered, we will then invoice and send the invoice to the company including our bank connection.

Thank you and we look forward to continuing our cooperation with you.

In behalf of the preparatory team with best regards

Jan Motlík
